THE Nashville Medical College.
UNION DEPOT, July 14th, 1879.
MR. EDITOR: Permit me to use a little space in your valuable journal to correct a gross misrepresentation which appeared in a recent article published in your paper over the non de plume of "Alpha." As I am an East Tennessean, and a graduate of the Nashville Medical College, I felt it my duty to correct a few of the mistakes of the above named article. The Greek word "Alpha" implies or means first, and I presume, therefore, he is the first who had the courage to make the groundless charges in which said article abounds. This prolific writer, says the Nashville Medical College "is a frail and feeble institution," and he says it is run by a few ambitious young men, without money or brains. I did not know till now that it was a crime to be a young man. "Alpha" should read Pitt's reply to Walpole on this subject. But the fact is, all the Faculty of the above named College are middle-aged men except two and those two are between 28 and 30 years, and the writer will stake his reputation on the point that they have more brains than "Alpha." The number of students attending the College and who have matriculated there since it was founded is a sufficient refutation of the charge of its being "a frail and feeble institution."

"Alpha" also tells your readers that the medical profession does not recognize the diplomas of this institution. When did this leviathan writer discover the fact? Learning Conner, M.D., Secretary of the American Medical College Association, says the Washington Medical College is recognized in the Medical Association, and if this be true, surely "Alpha" will and can lay his prejudices aside and recognize it. But there is another medical college in Nashville, and probably "Alpha" has "an axe to grind." As to money, the College clearly shows its self-sustaining, and this explains its "frailty." You can always tell the wounded bird, it will flutter. The Medical College has wounded "Alpha" and he flutters. Does he feel the point?

YELLOW FEVER.

WASHINGTON, D. C., July 15.—The National Board of Health today received a telegram from Dr. Mitchell, at Memphis, Tenn., stating that there were no new cases of yellow fever in the State.

MEMPHIS, TENN., July 15.—The first train on the Little Rock Railroad since last Friday, left this morning for Lonoke, Ark., to which point quarantine has been raised. Judge Ray's son was not so well to-day. No new cases have been reported, and the excitement attending the reports already published, has entirely subsided. A few citizens have returned.

CAIRO, ILL., July 15.—At a meeting of the Board of Health this forenoon, it was resolved that, owing to the favorable news from Memphis and the South, all quarantine restrictions be suspended.

KENTUCKY.

OWENTON, KY., July 15.—In the Buford trial this morning, among the witnesses for the defense was Dr. Bell, of Louisville, who was examined as an expert. He testified that he would not hesitate to pronounce Buford insane, basing his opinion on the testimony that had been offered. The defense attaches great weight to the evidence of Dr. Bell.

LOUISVILLE, July 15.—The Commercial newspaper establishment was sold to Receiver Wilson today to Gen. Eli H. Murray for \$2,030. The publication of the paper will be continued.

KENTUCKY.

CINCINNATI, O., July 13.—A mulatto named John Breckenridge overtook Miss Nannie Berry (white) while on her way to church, near Carlisle, Ky., yesterday and forced her into the woods, where he outrageously assaulted her. Breckenridge was subsequently captured and placed in jail. At an early hour this morning a mob surrounded the jail, and having forced an entrance carried Breckenridge out and hanged him on a tree.

MINOR DISPATCHES.

ALLENTOWN, PA., July 15.—Two hundred of the puddlers and helpers who struck for higher wages three weeks ago resumed work this morning, the Company deciding to give them an advance of fifteen cents per ton.

PHILADELPHIA, Pa., July 15.—Perseverance Cotton and Woollen Yarn Mill, at Manayunk, operated by John P. Holt & Bro., was destroyed by fire this morning. Loss, \$25,000; insurance about \$14,000.

FOREIGN NEWS.

LONDON, July 15.—A Berlin correspondent of the Times says: The key of Prince Bismarck's present policy towards the Vatican will be found in one of his recent speeches, in which he said that it was praiseworthy, under certain circumstances, to fight the quarrel out to the bitter end, but when ways and means presented themselves of toning down the acerbity of the conflict without affecting the principle at stake, he would not deem himself justified in neglecting such a proffered opportunity. The correspondent believes that most that has been accorded to Ultramontanism is that, in consequence of the retirement of Dr. Falk from the Ministry of Ecclesiastical Affairs, ecclesiastical laws have been enforced with more leniency than if he had remained in office, and that this may ultimately have the effect of procuring the recognition of the ecclesiastical laws by the Vatican.

SOUTH AMERICA.

PANAMA, July 15.—The news from Nicaragua is to the effect that a conspiracy to overthrow the Government of Costa Rica, headed by Frederica Maria and L. Sandour, was discovered about the 28th ult., and that the entire correspondence relating to it had fallen into the hands of the Government. Maria and Sandour have been arrested, and many other arrests have been made in the interior.

PANAMA, July 15.—An item containing Central and South American news, says the revolution in Mayalima has triumphed and that President Robles, whose principal crime seems to have been his active opposition to the candidature of the party in power, is now in prison. The three days fighting in the streets of Santa Martha ended on

the 25th of June; 170 lives were lost.

The Supreme Court of Peru has disapproved of the action of the Court of Prizes in regard to the release of the German steamer, Texas, and has ordered the vessel to be detained in Cabo, and the question is to be reconsidered.

From Roane County.

KINGSTON, TENN., July 13. MR. EDITOR: The continued drought is greatly injuring crops in Roane and adjoining counties; we have had no rain of consequence in over three weeks, and the weather has been as hot as we ever experienced.

The river is so low that the "Harry Helm" has quit running to Rockwood and the mail is carried in hack. It is the general understanding that Col. Scott, of St. Louis, has bought the Oakdale Iron Mining Company property, and will shortly set a number of hands to work, which will greatly enliven business matters with us.

Work is being rapidly pushed on the Clinchfield Southern Railroad, and the cars will soon be running to Emory Gap. The "Keystone Bridge Company" is bridging Emory river, and will probably have the bridge completed by the first of August. Col. R. K. Byrd has the contract for furling the timber, and already has most of it delivered.

While on a business trip to Morgan county, we took dinner with Mr. Wm. Carr Davis, Counsel at Pontotoc, Morgan county, who is in many respects, a very remarkable character. He was badly wounded about the close of the war, and is to-day entirely helpless from the effects of the wounds, besides being sadly afflicted with chronic rheumatism. He drew a pension of eighteen dollars per month, by special act of Congress, until quite recently, when he was cut down to eight dollars, which would pay a servant to wait on him. He says he is a personal friend of Judge Hook, and whether he is or not, we hope the Judge will try to get his pension restored to the former figure, at least. Mr. Carr, being unable to walk, or stir about, has become somewhat eccentric, and has let his beard grow until it now measures over three feet in length. He was a Union soldier and belonged to the Eleventh Tennessee Infantry. Respectfully, &c., "ROANE"

Normal School.

CONCORD, TENN., July 14, 1879. MR. EDITOR: The school opened at 9 a. m., with all present and several new additions. The subject of letter writing was discussed this morning instead of the regular recitation in Grammar, and proved very interesting and profitable. We are to be graded for to-day on letters to be written and handed in to Mr. McSpadden by tomorrow. It is woefully amazing how few there are who know how to write any kind of a letter correctly.

In regard to the importance of the Normal School, we would like to make a suggestion to the school directors of the county. We understand the directors of the 12th district, the banner district of the county in many respects, intend to visit the Normal School next week. We see how the teachers there are talking of employment, and are progressing, and perhaps, if not to their satisfaction, they may change their minds. This would be a good plan for all the directors of the county. It might be a better plan than is now pursued that the directors do not make their appointments until after the Normal School.

Another Sudden Death.

Mike Fitzgerald, an Irish laborer was found dead in his bed Sunday morning. He lived in North Knoxville, near Park street. He was an old man perhaps 50, not married, and lived with his brother, also single. He was a corporation employee, and had to stop work on the streets Saturday on account of sickness, but nothing was thought of it till his brother found him dead. It is supposed to have been a sunstroke, one side turned very black. He was buried Sunday evening in Calvary Cemetery.
